Theological speculation has presented itself. We better keep the right side of him, anyway. You can't tell me what he can do. In a neural lack of grace in motion or posture, Ralph remembered the missing figure with a parachute. conviction unwavering faith in something without evidence Then, at a time of greatest passion and conviction, that veil shook his head and he forgot what he was driving. woebegone touched or full of grief His twitchings exhausted him until he finds, odorless and woebegone, waiting for another spasm. myopia is an anomaly of vision in which distant objects appear to be blurry Gemini watched with anxiety and Piggy sat expressively behind the bright wall of his myopia. too much to count There was silence, except for the multifaceted murmuring of the bee. falter be either becoming weak, unstable, or obscure painted wild tribes giggled and Ralph's mind faltered. stopping gemini, puzzled, looked at each other; o Piggy, reassured by the cessation of violence, stood up cautiously. Parry hampered his movement struck a humming lap behind him and Ralph just parried the blow. mascot baubles believed to be a magical protection from evil He stood piggy still holding a mascot, a fragile, shining beauty shell. curious, showing curiosity The curious ant was busy in one of the eye sockets, but otherwise the thing was dead. acrid strong and sharp, as taste or smell He rubbed his cheek along his forearm, smelling acrid smell of salt and sweat and the outlanding of dirt. inimical is not friendly carry he must speak louder; and it rouse those striped and non-animated creatures from their feast to the fire. hinders the prevention of progress or free movement The Stick, which supported the skull, prevented him, but he would not be detached from his only weapon. essays make an effort or test He wagged his spear and essay fiercely. ululation long, loud, emotional howl or cry Eric raised his head and reached a weak ululation beat on his open mouth. goad urge or as if with prod He could not bring himself to be specific at first; but then fear and loneliness goaded him. ensconce set firmly At first light he would creep into the multiplex, squeeze between the twisted stems, ensconce himself so deep that just as he himself the caterpillar could come through, and that the scanner would be jabbed. cordon of sentinels or a series of messages, which contains a certain place or thing There he would sit, and the search would pass it, and the cordon waver, ululating along the island, he would be free. bramble any of the various rough tricky bushes or vines Closer to the cry stood him on his feet and immediately he was away again, running fast between thorns and brambles. a cautiously marked with extreme caution and vigilance the Navy officer stood on the sand, looking at Ralph carefully. epaulette decorative fabric cushion worn on the shoulder He saw white drill, epaulettes, revolver, gilded buttons row down the front of the uniform. gilded, with a deep slightly brownish gold color, He saw a white drill, epaulettes, a revolver, a gold-plated row of buttons at the front of the uniform. distend swell from inner pressure or as if from it other boys appeared now, small totai some of them, brown, with small wild bells. short-lived for a much short time Moment he had a picture of the strange glamour that once invested on beaches. It is believed that the mascot is something that protects the person holding it from bad spirits. The Lord of the Flies, although Piggy does not really believe in the existence of the Beast, he is frightened of Jack and his tribe, and he is afraid of the cone - a symbol of everything he tried to keep and who led him, the better, to do what adults, and of course his auntie , would do. Unfortunately, moments after holding the mascot-cone (ch 11)- Piggy is dead, and the cone is in pieces, so he does not protect it. After piggy's death, Jack, who had previously often ignored the cone's authority, does not give piggy thought; only that it must mean that I am the chief, and he begins to attack Ralph. The boys have really changed. Roger seems to have always been cruel and cruel, but never revealed such violence to the island. Jack was a respected Head choreographer and held a position of responsibility against the island. It even reminds them all early on that... we're not wild. We are english (ch2) when discussing the obedience of the rules. His thirst for power at all costs is only realized on the island and Ralph, the son of a navy commander, tries to think rationally and do what is best, but even he can't keep his position and weep on the end of innocence (ch12) because he knows he's been changed forever. It's the conflict between Ralph and Jack, which contributes to the cruelty that descends on boys, as Jack competes with Ralph, despite their shy love(ch 1) control of boys. At first he is pleased with his hunters that Ralph graciously admits when he is voted chief and can see Jack's blush mortification, but ultimately, Jack's controlling personality becomes more obvious as he craves full power and as Ralph's confidence in his abilities and the chances of rescue diminish, so he takes advantage and gains more support. Ralph wants what's best for everyone and Jack just wants to satisfy his selfishness. Ralph's responsible behaviour ensures and fire and everything that will be saved, and Jack's irresponsible behavior is based here and now and what he can get out of the situation without a vision for the future. The Navy rescues the boys and is significant, because it can mean a return to civilization and a second chance for Ralph. It's war time, but the boys will probably be safe from danger, as Navy officers will protect them, but whether Jack and Roger will be safe from themselves, only the reader's interpretation may decide that. A romantic reader would say yes to Roger and Jack's reform, but a more dramatic reader could probably imagine any number of terrific things these boys can. Then the author perhaps allows the reader to draw his own conclusions as to whether the rescuers, significantly civilized by English naval officers, are enough to make the boys match, or civilization arrived too late.
